Mission Statement

The mission of the Winston Park K8 Center Student Services department is to provide a comprehensive educational program that addresses the academic, career and personal/social needs of all students. As professional school counselors we are committed to advocate for students and collaborate with parents, staff, and community partners to ensure all students leave with the knowledge, skills, and attitude to excel in a diverse society. Strategic focus will be on attendance initiatives so that students can achieve inner motivation to become lifelong learners.

SIP

Based on the data review, our school attendance has dropped. We selected this strategy because our findings demonstrated only 41% of our students missed more than 9 days of school. Students are not motivated and engaged if they are not in school.

Goals

Develop weekly, bi-weekly, and monthly attendance activities to encourage and inspire students to attend school on a daily basis. This will include present and on time prizes (Pop Attendance), certificates, jeans day, ice-cream party and perfect attendance field trip.

Implement attendance initiative to motivate and engage students in the classroom on a daily basis. When students are not in school, they will not learn. By involving all stakeholders in our attendance incentive program, we will create a "buy-in" and in return increase student attendance.
