

Meet the Counselor

Ms. Sampson

Upper Academy Grades 6-8

All About Me

My name is Doris Sampson, I am originally from Belize. I truly love to serve the community and participate in missionary work. I am inspired by educating all students so that they can find their place in society and be successful functional individuals. I believe that ultimately, students need not only the academic and

knowledge skills for their future, but they need to learn to become good citizens who are productive, displays positive character and serve their community.
